Call Before You Cut! (a tree)

The Borough of Caldwell has a "Tree Removal and Protection Ordinance" in place. The town considers that both ornamental and full sized trees are inherently valuable as community assets, and has adopted this ordinance (227) to protect them. Knowing that circumstances can arise where tree removal is necessary, the Borough has established a process which may permit the cutting down of trees.

- If a property owner needs to remove a healthy tree that would otherwise be protected (ornamental trees with a diameter of 3 inches or greater at 4 feet above the ground, or evergreen trees with a diameter of 6 inches or greater at 4 1/2 feet above the ground), an application process has been included in the ordinance.
- If the application to remove a healthy tree is approved, the property owner may cut down the tree (or trees) in question. However, the ordinance requires that a reasonable replacement be planted on the property, if possible. If not, a replacement can be planted elsewhere in Caldwell.
- If the tree in question is dead, diseased, or poses a safety hazard, they may be removed without being replaced. An application for removal is still required and a permit issued to take down the tree.
- Street trees are property of the Borough of Caldwell and not to be removed. Contact the Caldwell Tree Committee with concerns/questions about street trees.
- An application for tree removal is required by the Borough of Caldwell. To avoid a fine of up to \$1,000 per tree, file an application for tree removal with the Borough.
- For permit applications and additional information, contact: 973-403-4626.
